Could your organization benefit from the alternative workplaceâ€”where employees work off-site, primarily from home? AT&T, IBM, and even the U.S. Army are saving a bundle in real-estate and infrastructure costs by having workers work from homeâ€”even with the added cost of providing these employees computers, software, tech support, etc. Productivity gains are another compelling benefit: in a ...

The water footprint shows the extent of water use in relation to consumption by people. The water footprint of an individual, community or business is defined as the total volume of fresh water used to produce the goods and services consumed by the individual or community or produced by the business. Water use is measured in water volume consumed (evaporated) and/or polluted per unit of time.

In geography, the temperate or tepid climates of Earth occur in the middle latitudes, which span between the tropics and the polar regions of Earth. These zones generally have wider temperature ranges throughout the year and more distinct seasonal changes compared to tropical climates, where such variations are often small.. The Köppen climate classification defines a climate as "temperate ...
