

construction project administration 10th pdf

1. Introduction. Building Information Modelling (BIM) is defined as the process of generating, storing, managing, exchanging, and sharing building information in an interoperable and reusable way. It requires the development and use of a computer generated model to simulate the planning, design, construction and operational phases of a project. The BIM Industry Working Group shows that the UK ...

BIM implementation throughout the UK construction project

The 7 Subway Extension is a subway extension of the New York City Subway's IRT Flushing Line. The extension stretches 1 mile (1.6 km) southwest from its previous terminus at Times Square, at Seventh Avenue and 41st Street, to one new station at 34th Street and Eleventh Avenue. A second station at 10th Avenue and 41st Street was dropped from the plans in October 2007.

The productivity of the construction industry worldwide has been declining over the past 40 years. One approach for improving the situation is using lean construction.

Applying lean thinking in construction and performance

The following document was published in June of 2002. If genuine, it must rank as one of the most remarkable documents in history. It purports to be a top-secret report from the German external intelligence agency, the Bundesnachrichtendienst (BND) prepared with assistance from an internal German intelligence agency, the BfV.
